

Cabernet Sauvignon Longridge Organic 2020

Region

This famous region is 30 miles north east of Cape Town yet still close enough to the ocean to benefit from cool maritime conditions. These beautiful vineyards are dominated by scenic mountains and the region is home to some of the Cape's most famous and influential wine estates. The most noted and important vineyards are located on the prized slopes of the Simonsberg Mountain. This small and highly rated sub-zone has fantastic terroir and is where many of South Africa's top red cuvees are produced.

Producer

Longridge strive to be as environmentally conscious as possible, providing excellent quality wines while minimizing the impact on the environment. They use renewable energy sources like solar energy and allow free-roaming ducks to help with pest control, and cattle for manure and compost. They focus on the varieties that are best suited to their climate and soils; Chardonnay and Chenin Blanc (Steen) and classic red varieties Merlot, Cabernet Sauvignon and Pinotage. Biodynamic viticultural methods are utilised to the fullest and they follow natural winemaking using less sulphur dioxide and no commercial yeast, enzymes, fining agents, stabilizing agents or filtration methods.

Tasting Notes

Using Biodynamic practices the grapes are carefully looked after with careful extraction to ensure a fine balance. The wine is in French oak barrels during primary and secondary fermentation for 22-24 months and is ready for drinking now, but will continue to develop over the next eight years. An elegant Cabernet with classic aromas of rich cherry tobacco, cigar box and dark fruit, complemented by silky tannins, which is well structured and delicately smooth.

Food

Pairs well with hearty meats and rich saucy dishes.

Technical Information

Country	South Africa	Dry/Sweet Style	Dry
Region	Stellenbosch	Alcohol Content	14%
Grape(s)	Cabernet Sauvignon (100%)	Closure Style	Cork
